

Facilitator Guidelines

Focus on Severe Weather Operations. You will have from 12:45 until 2:00 pm to work on these topics. Plan your breaks accordingly, and keep in mind that we are looking for the group's final suggestion.

Each of these questions SHOULD NOT need to be answered in sequential order. The emphasis will be on hearing/seeing/knowing what others need and how to best provide data for the entire group.

Select a person (or two) to report out to the ENTIRE group at the final session.

Reporter(s): _____

What data do you need for your severe weather operations?

Media	EMA (include Fire/Police/Dispatch)	NWS

Why is that data important to you?

Media	EMA (include Fire/Police/Dispatch)	NWS

What data do you currently receive?

Media	EMA (include Fire/Police/Dispatch)	NWS

How do you get that data? List all the sources and be as specific as possible.

Media	EMA (include Fire/Police/Dispatch)	NWS

Once you get data, how do you share the data?

Media	EMA (include Fire/Police/Dispatch)	NWS

What can you do to make your data more accessible to all members of the IWT?

Media	EMA (include Fire/Police/Dispatch)	NWS

Did you hear about data from another group that could be valuable to you? If so, who has the data and why is it important to your organization?

Media	EMA (include Fire/Police/Dispatch)	NWS

What data are you missing during your severe weather operations? Are there limitations that prevent you from getting data?

Media	EMA (include Fire/Police/Dispatch)	NWS

What is our group's suggestion for making data more accessible to all members of the IWT?

Group: _____
